TABLE	TITLE
I	Professional Staff by Assignment, Sex and Race: Maryland Public School Systems: September 30, 1982
II	Professional Staff by Assignment and Sex: Maryland Public School Systems: September 30, 1982
III	Professional Staff by Assignment, Race and Sex: Maryland Public School Systems: September 30, 1982

INTRODUCTION

The following tables present data concerning the distribution by sex and race of the professional staff employed by Maryland's local school systems in the fall of 1982. The data were extracted from the Elementary Secondary Staff Information (EEO-5) reports* of the Equal Employment Opportunity Commission.

Table I presents a State summary showing the total employed in various assignments by race and the males and females in each racial category. While Statewide there are almost twice as many females as males in professional educational employment, 83.4 percent of the females are at the teaching level. Of the black professional educators employed, over 77 percent are females; and again, most of them are in teaching.

Table II shows, by local school system, the male and female distribution of various assignment classifications. Of the 1,232 school principals reported, 824 (representing 67 percent) are males. Baltimore City with 61.8 percent is the only local unit with more female than male principals. Figure 1 presents a comparison of males and females in selected assignments.

Table III presents the total staff employed within each local unit by assignment classification, race and sex. Statewide, local units employed 11,706 black professionals, representing 25.5 percent of the total staff. More than 58.9 percent of those are employed in Baltimore City. Other minority groups represent less than 1 percent of the professional staff employed by local units. Figure 2 presents distribution by race (white vs. black) within selected assignments.

---

*A biennial compliance reporting system, mandated under the Civil Rights Acts of 1964 and the Equal Employment Opportunity Act of 1972, and implemented by the School Reporting Committee (EEO-5) in a joint effort between the Equal Employment Opportunity Commission, the Office for Civil Rights and the National Center for Education Statistics.

DEFINITIONS

Adapted from definitions supplied by the Equal Employment Opportunity Commission to complete the Elementary-Secondary Staff Information (EEO-5) reports.

ASSIGNMENTS

1. OFFICIALS, ADMINISTRATORS AND MANAGERS: These occupations have the responsibility of setting and executing broad policies, or directing departments of a school system. Included are superintendents and their deputies, assistants and associates, school business officials, directors and administrators of systemwide programs and other similar positions.

2. CONSULTANTS AND SUPERVISORS OF INSTRUCTION: Includes persons having an expertise in a field of specialization and with the responsibility of improving the performance of teachers and other instructional staff people.

3. PRINCIPALS: Administrative heads of schools to whom have been delegated the major responsibility for the coordination and direction of the activities of their respective schools.

4. ASSISTANT PRINCIPALS: Includes persons who assist the head of school (normally a principal) in directing and managing the school; they may or may not engage in instructing pupils in classroom situations.

5. TEACHERS: Person assigned the professional activities of instructing pupils in classroom situations for which daily pupil attendance figures for the school system are kept. Local school systems determine if teachers were included in elementary or secondary. Teachers of music, band, physical education, home economics, etc., are included with elementary or secondary if they teach full-time at the same school; otherwise, they are included with teachers of ungraded classes and special education in "other teachers".

6. GUIDANCE: Includes staff members responsible for advising pupils regarding their abilities and aptitudes, education and occupational opportunties, personal and social adjustments, etc.

7. PSYCHOLOGICAL: Includes only psychologists, psychometrists, psychiatrists and psychological-social workers who are engaged in providing psychological-evaluative services to pupils for placement purposes.

8. LIBRARIANS AND AUDIO-VISUAL: Librarians include persons responsible for organizing and managing school libraries. Audio-visual personnel include those "responsible for preparing, caring for and making available to instructional programs the equipment, materials, scripts and other aids which assist teaching and learning through special appeal to the senses of sight and hearing, e.g., director of audio-visual services, scriptwriter, etc.".

9. OTHER PROFESSIONALS: Includes persons performing an instructional or related function that cannot be classified in aforementioned categories. Such classifications are: non-classroom teachers such as home and hospital or radio/television, speech therapist, school social workers, community workers, attendance officers, engineers, psychiatrists or psychologists not included with "psychological" and other professional non-instructional personnel.

OTHER

1. TIME PERIOD: The statistics reflect the payroll period nearest October 1, 1982.

2. FULL-TIME: Staff members who are employed (not elected or appointed) on a full-time basis by a school system. Members may be part-time at particular schools, but are counted full-time with the local system. Employees with multiple-activity assignments are treated as full-time in the assignment in which they spend at least 51 percent of their time; if the time is 50-50, the person is reported full-time in the most critical assignment.

TABLE OF CONTENTS

TABLE	TITLE
I	Professional Staff by Assignment, Sex and Race: Maryland Public School Systems: September 30, 1984
II	Professional Staff by Assignment and Sex: Maryland Public School Systems: September 30, 1984
III	Professional Staff by Assignment, Race and Sex: Maryland Public School Systems: September 30, 1984

INTRODUCTION

The following tables present data concerning the distribution by sex and race of the professional staff employed by Maryland's local school systems in the fall of 1984. The data were extracted from the Elementary Secondary Staff Information (EEO-5) reports* of the Equal Employment Opportunity Commission.

Table I presents a State summary showing the total employed in various assignments by race and the males and females in each racial category. While Statewide there are almost twice as many females as males in professional educational employment, 82.7 percent of the females are at the teaching level. Of the black professional educators employed, over 78 percent are females; and again, most of them are in teaching.

Table II shows, by local school system, the male and female distribution of various assignment classifications. Of the 1,207 school principals reported, 783 (representing 64.8 percent) are males. Baltimore City with 60.9 percent is the only local unit with more female than male principals. Figure 1 presents a comparison of males and females in selected assignments.

Table III presents the total staff employed within each local unit by assignment classification, race and sex. Statewide, local units employed 11,233 black professionals, representing 25.1 percent of the total staff. More than 55.9 percent of those are employed in Baltimore City. Other minority groups represent less than 1 percent of the professional staff employed by local units. Figure 2 presents distribution by race (white vs. black) within selected assignments.

---

*A biennial compliance reporting system, mandated under the Civil Rights Acts of 1964 and the Equal Employment Opportunity Act of 1972, and implemented by the School Reporting Committee (EEO-5) in a joint effort between the Equal Employment Opportunity Commission, the Office for Civil Rights and the National Center for Education Statistics.

DEFINITIONS

Adapted from definitions supplied by the Equal Employment Opportunity Commission to complete the Elementary-Secondary Staff Information (EEO-5) reports.

ASSIGNMENTS

1. OFFICIALS, ADMINISTRATORS AND MANAGERS: These occupations have the responsibility of setting and executing broad policies, or directing departments of a school system. Included are superintendents and their deputies, assistants and associates, school business officials, directors and administrators of systemwide programs and other similar positions.

2. CONSULTANTS AND SUPERVISORS OF INSTRUCTION: Includes persons having an expertise in a field of specialization and with the responsibility of improving the performance of teachers and other instructional staff people.

3. PRINCIPALS: Administrative heads of schools to whom have been delegated the major responsibility for the coordination and direction of the activities of their respective schools.

4. ASSISTANT PRINCIPALS: Includes persons who assist the head of school (normally a principal) in directing and managing the school; they may or may not engage in instructing pupils in classroom situations.

5. TEACHERS: Person assigned the professional activities of instructing pupils in classroom situations for which daily pupil attendance figures for the school system are kept. Local school systems determine if teachers were included in elementary or secondary. Teachers of music, band, physical education, home economics, etc., are included with elementary or secondary if they teach full-time at the same school; otherwise, they are included with teachers of ungraded classes and special education in "other teachers".

6. GUIDANCE: Includes staff members responsible for advising pupils regarding their abilities and aptitudes, education and occupational opportunties, personal and social adjustments, etc.

7. PSYCHOLOGICAL: Includes only psychologists, psychometrists, psychiatrists and psychological-social workers who are engaged in providing psychological-evaluative services to pupils for placement purposes.

8. LIBRARIANS AND AUDIO-VISUAL: Librarians include persons responsible for organizing and managing school libraries. Audio-visual personnel include those "responsible for preparing, caring for and making available to instructional programs the equipment, materials, scripts and other aids which assist teaching and learning through special appeal to the senses of sight and hearing, e.g., director of audio-visual services, scriptwriter, etc.".

DEFINITIONS (Continued)

9. OTHER PROFESSIONALS: Includes persons performing an instructional or related function that cannot be classified in aforementioned categories. Such classifications are: non-classroom teachers such as home and hospital or radio/television, speech therapist, school social workers, community workers, attendance officers, engineers, psychiatrists or psychologists not included with "psychological" and other professional non-instructional personnel.

OTHER

1. TIME PERIOD: The statistics reflect the payroll period nearest October 1, 1984.
2. FULL-TIME: Staff members who are employed (not elected or appointed) on a full-time basis by a school system. Members may be part-time at particular schools, but are counted full-time with the local system. Employees with multiple-activity assignments are treated as full-time in the assignment in which they spend at least 51 percent of their time; if the time is 50-50, the person is reported full-time in the most critical assignment.

PREFACE

Selected Financial Data, Part 2 is a summary of expenditures reported in each Local Education Agency's Annual Financial Report. These expenditures are reported according to State budget categories as prescribed in the Public School Laws of Maryland, and the following tables are formatted to show expenditures by object within each category for the Current Expense Fund and within object for the other funds.

When using these tables, keep the following in mind:

1. Expenditures from local, state and federal funding sources are combined in these tables.

2. Expenditures for equipment are reportable within each budget category as an object of expenditure, but the following adjustments have been made in presenting this information:

   a. All additional equipment is shown in Table 12 rather than on each individual table. Although State law requires equipment to be budgeted to the category for which the equipment will be used, these expenditures are of a capital nature and are not true current expenditures.

   b. Replacement equipment is removed from the category in which it was budgeted and reported and has been included in Table 8. This method of handling replacement equipment is a carryover from earlier years when uniform standards for reporting were established by the USOE in a manual called The Common Core of Data. Although a new handbook was developed several years ago which specified all equipment, both additional and replacement, as a capital expenditure, Maryland is still following the Common Core of Data definition.

3. Separate funds are maintained by the LEAs to account for revenue and expenditure by the purpose. The Current Expense fund accounts for monies used to provide educational services. The School Construction Fund accounts for monies used to build and renovate schools and administrative buildings. The Debt Service Fund accounts for the repayment of debt. The Food Service Fund accounts for activities involved in providing meals to students and other eligible populations, and the Student Activities Fund accounts for book store and other student enterprise activities.

TABLE 1

Disbursements for All Purposes: Maryland Public Schools: 1983-84

INTRODUCTION

Selected Financial Data is prepared annually from information reported by each of the 24 local education agencies (LEAs) in Maryland in the Annual Financial Reports. These reports, authorized under the Public Schools Laws of Maryland, Section 2-205, Section 5-109 and Bylaw 13A.02.01.03, dictate a uniform format for reporting LEA finances to the Maryland State Department of Education. A manual entitled the Financial Reporting Manual for Maryland Public Schools was developed to further define the reporting requirements as contained within the law and to enable a collection of financial data which will conform to federal and state reporting requirements. Revised periodically to incorporate these changes, the latest revision was in 1983.

FINANCIAL REPORTING IN BRIEF

LEAs are legal entities which exist to operate schools or contract for educational services. In Maryland, these school units are coterminous with the boundary of the political subdivision; i.e., the 23 county governments and the Baltimore City government. These school systems have no taxing powers and must compete with other county or city agencies for funds to provide educational services. Local funds for education are made as appropriations for specific purposes; and to assure that these purposes are adhered to, separate funds must be maintained to account for the monies. Maryland LEA's maintain a minimum of 6 funds in addition to a special account for keeping track of fixed asset.

Revenues for each fund are provided from federal, state and local sources. It is important to note that federal revenue is reported as it is spent or encumbered not as it is received; and, therefore, is not equal to the appropriation. Following are a list of the funds and a brief description of each:

(1) The Current Expense Fund contains all accounts for general, routine current operations. Maryland presently has 12 categories into which current expenses are reported - Administration, Instruction, Student Personnel Services, Health Services, Student Transportation, Operation of Plant, Maintenance of Plant, Fixed Charges, Food Services, Community Services, Special Education Capital Outlay. Some of these categories are further divided into specific functions, but each of the categories require some or all of the following object of expenditure details: salaries and wages, contracted services, supplies and materials, other charges, replacement and additional equipment, and outgoing transfers. Subobject details are required for specific accounts; and expenditures for the categories of Instruction, Special Education and Administration require details to isolate expenditures for particular services, e.g. business support services versus centralized support services, regular instruction versus expenditures for gifted and talented students, and itinerant special education services versus expenditures for resource rooms. In addition, expenditures for instruction and special education and for School Instructional Support services in Administration are reported by school level.

The Current Expense Fund is separated into two parts. The first part consist of all expenditures from sources of money which are unrestricted for use, such as local appropriations and most state aid. The second part consisting of expenditures which are restricted for use, requires a separate expenditure report to account for how expenditures were made for each grant. LEA's submit reports for each grant in accordance with the categories/objects defined in the Financial Reporting Manual. These expenditures are combined with unrestricted expenditures to produce a consolidated report of all current expenditures. Additional information about federal fund expenditures can be found in a release entitled Federal Program Expenditures Report, annually published by the Maryland State Department of Education.

(2) All transaction relating to major school construction or remodeling are accounted for in the School Construction Fund as follows: purchase of sites, site improvements, building additions, remodeling, additional equipment, and other construction expenditures. In Maryland, the State has the responsibility of funding school construction and local school systems may supplement these funds to provide facilities in excess of those which are state approved.

(3) The Debt Service Fund accounts for the systematic repayment of principal and interest on debt. Although Maryland LEA's do not have the authority to issue bonds for school construction, they may be responsible for handling repayment of debt.

(4) The Food Service Fund accounts for operations required to provide meals to students and staff in schools; i.e., operating kitchen equipment, preparing and serving food, cleaning and storing equipment, and delivery services.

(5) The Student Activities Fund accounts for funds which are owned, operated, and managed by the student body under the guidance of the LEA staff, e.g., extracurricular activities, school stores, etc.

(6) The Trust/Agency Fund accounts for assets for which the LEA is trustee or agent.

HISTORICAL CONTINUITY

Due to Maryland General Assembly decisions, federal legislation and accounting policy changes initiated by the AICPA and NCGA which impact annually upon the reporting requirements for the school systems, historical continuity in reporting becomes difficult. One such change became effective for the 1983 fiscal year when salaries and wages for supervisors of Instruction and all those employed in services which enhance instructional programs for regular pupils were pulled from the category of Instruction and moved to the category of Administration. Because the impact of such a reporting change is so startling, those expenditures have been separately indentified in Selected Financial Data, Part II, Table 5.

Expenditures for educating students with special needs were separated from expenditures for educating regular students in 1981 when Category 13, Special Education, was added. Therefore, when comparisons of expenditures for Instruction are made for years prior to 1981, it will be necessary to add Special Education expenditures to instructional expenditures. For the years after 1983, not only must Special Education be added, but the expenditures now reported in Administration for School Instructional Support also must be added.

Other minor reporting changes have occurred over the past several years. Briefly, two categories were eliminated and expenditures transferred to other areas, and one category was abbreviated. Expenditures for Student Body Activities are now Cocurricular Activities under Instruction, and Outgoing Transfers is an object of expenditures to be reported in the appropriate category. The category of Food Services, under which expenditures of local dollars for Food Service Supervisor and his/her staff are budgeted, now has only one object of expenditure–interfund transfers. All Food Service expenditures are reported in detail in the Food Service Fund and shown in Selected Financial Data, Part II, on Table II.

It should be noted that many of the financial details which the LEA's report are not regularly included as a part of our annual public information releases. If you have specific needs for information not contained with Selected Financial Data, we would like to hear from you to determine if we can provide the specific information you desire. Please make your request in writing to Mrs. Kathie Hiatt, Specialist in Financial Reporting. If you would prefer to come in and see what information is collected routinely, or if you have questions regarding this information, please contact Mrs. Hiatt at 659-2664.

DEFINITIONS

Administration refers to an expenditure category for reporting the general regulation, direction, and control of LEA and the LEA instructional programs. Activities in this category affect the LEA as a whole, not the administation of a single building or narrow phase of school activities and generally refer to LEA activities involving the formulation and execution of educational or financial policy.

Assessed Property Valuation is the valuation of property as determined by the State Department of Assessments and Taxation.

Average Daily Attendance is computed by dividing the sum of the days present of all students in the school system by the total number of days that schools are in session in given a school year. When cost per pupil data are based on ADA, kindergarten students who attend for only one-half day are counted as one-half student. ADA so adjusted is referred to as equated ADA.

Average Number Belonging is computed by dividing the sum of the days present and absent of all pupils in the school system by the total number of days that the schools were in session. When cost per pupil data are based on ANB, kindergarten pupils are counted one-half when they attend school for only one half-day.

Bonded Debt is the part of the local unit debt which is covered by outstanding bonds.

Capital Outlay is an expenditure which results in the acquisition of a fixed asset or an additon to fixed assets.

Community Services are services other than those for public schools and adult education which are provided by the school or local unit for the community as a whole or some segment of the community; e.g., community recreation programs, civic activities, public libraries, programs of custody and care of children, etc.

Debt Service refers to expenditures for the debt principal and interest, excluding principal and interest on current loans.

Federal Funds are funds received from the federal government either directly or indirectly (as is the case with most monies which are given to the Maryland State Department of Education and distributed to the LEAs by any of several methods.)

Fixed Assets are land, buildings, machinery, furniture, and other equipment which the local unit intends to hold for an extended period.

Food Services are activities involved with the preparation and serving of regular and incidental meals, lunches, or snacks for school activities, and the delivery of food.

Fund is an independent accounting entity with its own assets, liabilities and fund balances, and generally established as an account for financing specific activities of an agency's operations.

Health Services are physical and mental health activities which provide pupils with appropriate medical, dental, and nurse services.

Instruction refers to activities dealing directly with the teaching of regular pupils either in the school classrooms or in any other location, or it involves other learning situations such as cocurricular activities. Included are expenditures for the Office of the Principal.

Local Appropriation is money received out of funds set aside by the County Commissioners or City Council for a special purpose such as education.

Local Education Agency (LEA) is the basic administrative unit which exists primarily to operate schools. In Maryland, the LEAs coincide with the political subdivisions i.e., the 23 counties and Baltimore City.

Maintenance of Plant refers to activities concerned with keeping the grounds, buildings and equipment in the original condition of efficiency or or completeness either through repairs or replacement of property. Since expenditures for replacement equipment are a subobject within each category of expenditure, all replacement equipment has been removed from each category and reported within this category in Selected Financial Data.

Operation of Plant consists of keeping the physical plant open and ready for use, including cleaning, disinfecting, heating, moving furniture, caring for grounds, operating telephone switchboards, and other activities which are repeated regularly.

Revenue means an addition to an asset which does not increase any liability, does not represent the recovery of an expenditure, does not represent the cancellation or decrease in assets, and does not represent contribution of fund capital in Food Service and Student Body Activity funds.

Special Education consists of activities designed for students who, through appropriate assessment, have been determined to have temporary or long-time special education needs arising from cognitive, emotional, and/or physical factors.

Students Personnel Services are activities such as attedance services, social work services or student account service which are designed to improve the student's attendance at school and prevent or solve student problems at home, the school, or in the community.

Student Transportation involves the coveyance of pupils to and from school activities as provided by State law, including trips between home and school or trips to school activities.
